

# Organize your class.

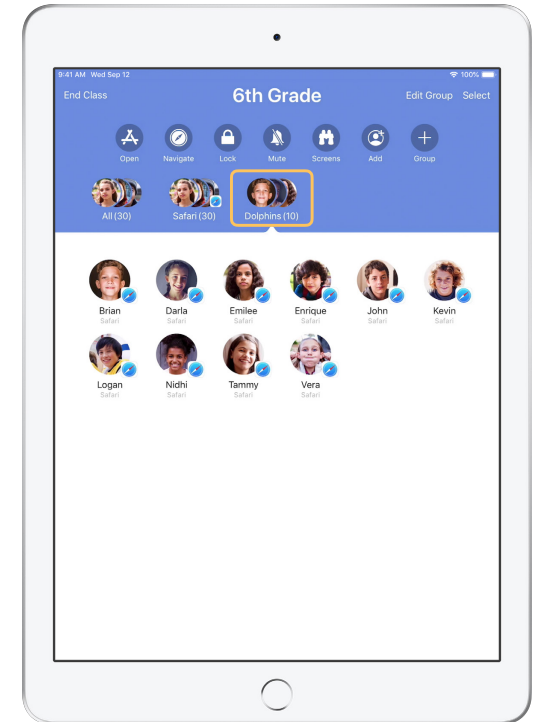

Classroom lets you create custom groups within your class, so you can tailor guidance for a single student, a group of students, or the entire class. You can break the class into groups based on project assignment, and guide each group's experience differently.

Tap Group in the Actions list, then name the group based on project, skill level, or other categories as appropriate.

Select the students to be placed in the group, then tap Done.

The group is now visible in the group list. Classroom also creates dynamic groups of students based on which app each student is using.
